

Awarded by

#### Tech. Data :-

- Material composition: ABS
- Variant: Hand operated.

#### Features:-

- Light weight.
- Easy to use.
- Can be used by unskilled person.

#### Suitable for :-

For fast and efficient removal of dust and debris from drilled holes.

#### Tech. Data :-

- Material composition: Steel body & head.
- Variant: Hand operated.

#### Features:-

- Light weight.
- Easy to use.
- Can be used by unskilled person.

#### Suitable for :-

- Thorough cleaning & hole preparation.
- Removal of dust from the walls of drilled holes.

Awarded by

**Tech. Data :-**

- Material composition: Plastic
- Variant: Co-axial

**Suitable for :-**

Use with chemical CM.

**Features:-**

- Light weight.
- Easy to use..

**DM300**

**DM500**

**DM400**

**Tech. Data :-**

- Material composition: Steel body & mechanism.
- Type: Manual.
- Power source: Manual driven.

**Features:-**

- Easy & fast loading.
- Well balanced for better handling.

**Suitable for :-**

Injection of ICFS adhesive mortar for fastening anchor rods and rebars in concrete and masonry.
